How Growth Programme grants work

Got an idea?

1 Make a plan

Every successful application starts with a good idea and a clear plan for how to make that idea a reality.

2 Read this handbook

Read the rest of this handbook to check you are eligible and that there is funding available in your local area.

3 Express an interest

Fill in an expression of interest (EOI) form and email it to RPA. Tell us about your project and how a grant will make it bigger and better.

4 Apply in full

If your EOI is endorsed, you can make a full application. If this is successful, you'll get a funding agreement to sign.

5 Get to work

With your funding agreement signed, you can start work on your project.

6 Claim your money

After you've paid for the work, you can claim your money.

Read the rest of this handbook to find out more, including our 'Top tips for applicants' on page 30

About the RDPE Growth programme

Includes:

- **How the government manages these grants**
- **Government guarantees about funding after the UK leaves the EU**

About the RDPE Growth Programme

The RDPE Growth Programme provides funding for projects in England which create jobs and growth in the rural economy.

Under the RDPE Growth Programme, there are grants for:

- rural tourism infrastructure
- food processing
- business development

The grants are funded by the European Agricultural Fund for Rural Development (EAFRD), which is part of the European Structural and Investment Funds (ESIF).

This handbook is about RDPE Growth Programme grants for rural tourism infrastructure. It explains what the grants are for, who is eligible and how to apply.

To find information about the other grants, search 'RDPE Growth Programme' on GOV.UK.

Planning a project that will grow your business, create jobs or bring more money into the rural economy?

You might be able to apply for a grant to help you fund it.

You can only apply for one RDPE grant for your project, and only in one LEP area.

RDPE includes RDPE Growth Programme, LEADER, Countryside Productivity, Farming Recovery Fund and Cumbria Countryside Access Fund.

How the government manages these grants

The Rural Payments Agency (RPA) delivers the grants, working with ESIF sub-committees in Local Enterprise Partnerships (LEP) areas.

RPA's role is to assess applications for grants, with advice from the ESIF sub-committees.

LEPs are partnerships between public bodies and businesses. Their role is to decide local priorities for the grants – where money should be directed to give the most benefit locally.

RPA may at any time and without further notice:

- increase or decrease the grant funding allocated to each LEP area
- support more or fewer projects, depending on the number and quality of applications
- change the date these grants close to applications

Read pages 33 to 68 for the LEP areas that are offering these grants. Use the map on page 31 to find your LEP area.

Government guarantees about funding after the UK leaves the EU

The government has confirmed that it will guarantee funding for RDPE Growth Programme grants if these are agreed and signed before the UK's departure from the EU, even if the grant agreements continue after we have left the EU, subject to projects meeting the following conditions:

- they are good value for money
- they are in line with domestic strategic priorities

Please read the priorities for funding on page 17.

Deadlines: You should aim for your project to be finished and paid for, and complete grant claims submitted, by 31 March 2019. The final date to submit complete grant claims is 31 December 2019.

About rural tourism infrastructure grants

Includes:

- Who can apply
- What the grants are for
- How much money you can apply for
- Examples of projects

About rural tourism infrastructure grants

An overview of the tourism infrastructure grants – who can apply, what the grants will fund and how much funding is available.

Who can apply

If the project is commercial and intended to make a profit, only small businesses and farmers who want to diversify can apply.

If the project is not expected to make a profit, a wide range of organisations can apply.

Read page 13 to check if your business is eligible.

What the grants are for

The grants will help fund the costs of capital expenditure on tourism infrastructure.

The aim is to support projects that will encourage more tourists to come, to stay longer and to spend more money in rural areas.

How much money you can apply for

Normally they are for a minimum of £35,000, though this will vary in some LEP areas. Check the entry for your LEP area on pages 33 to 68. The amount you can apply for depends on the size of your business and where it is located.

You won't automatically get a grant.

When you apply for a grant, you're competing with other applicants in your LEP area.

All applications are assessed to see how well they fit the priorities for funding and which projects provide best value for taxpayers' money.

Examples of projects

Here are some examples of the kinds of projects which may be eligible for a rural tourism infrastructure grant.

New access infrastructure

The local district council is investing in paths to connect up a number of existing footpaths, cycle ways and bridleways.

This will create a network of easily accessible circular routes of between 4 and 15 miles, which will make the area more attractive for walking and cycling.

Extending a local museum

A local heritage museum (which is free to enter) wants to build a second viewing gallery, so it can display more of its collection.

The new gallery will include a small area for a café. The new gallery and café mean that visitors will stay longer at the museum. The project will create 2 new full-time jobs.

Capital investment in visitor attractions

A business is building a new visitor attraction for families. This will add to the range of attractions already in the area.

It will make the area more attractive to tourists and increase the number of visitors.

Because the new visitor attraction is all-weather, it will help extend the tourist season in the area.

This means other tourism businesses, like restaurants and accommodation providers, will also benefit.

The project will create one full-time job and 4 seasonal jobs.

Who can apply

Includes:

- **Check the size of your business**
- **What is a 'full-time equivalent' (FTE) employee**
- **Who can't apply**

Who can apply

What type of organisation can apply depends on whether or not the project will be commercial.

These grants can fund a wide range of projects that provide products and services to tourists. Who can apply depends on whether or not the project is profit-making and commercially run.

All projects must be in a rural area:

Type of project	Examples (these are illustrations only)	Who can apply
Commercial, profit-making project	<ul style="list-style-type: none"> • Tourist attractions • Accommodation • Retail outlets • Food and drink outlets 	<ul style="list-style-type: none"> • Small businesses, including social enterprises • Farmers wanting to diversify into tourism
Has some income to offset costs, but is not intended to make a profit	<ul style="list-style-type: none"> • Small buildings for tourist information 	<ul style="list-style-type: none"> • Rural businesses, including social enterprises • Farmers • Land-owners • People or groups representing rural communities • Charities • Public bodies
Generates no income	<ul style="list-style-type: none"> • Free tourist attractions, for example local landmarks 	<ul style="list-style-type: none"> • Rural businesses, including social enterprises • Farmers • Land-owners • People or groups representing rural communities • Charities • Public bodies

Check the size of your business

The size of the business depends on the number of full-time equivalent (FTE) employees it has and its financial performance.

The table below shows what qualifies as a small or micro business.

Business Size	Number of FTE employees		Annual turnover or balance sheet total
Small	fewer than 50	and	€10m (about £7.9million) or less
Micro	fewer than 10	and	€2m (about £1.6million) or less

What is a 'full-time equivalent' (FTE) employee?

Anyone who works a minimum of 30 hours per week counts as 1 FTE employee.

A person working 30 hours a week for 3 months of the year would be 0.25 FTE employee.

FTEs include business partners and directors. If a business partner or director works more than 30 hours per week they still count as 1 FTE employee.

New businesses can also apply

If you have an idea, a business plan and potential private funding for your project, you can apply for a grant.

Is your business 'linked' to other businesses

If your business is linked to other businesses, this might mean you exceed the business size requirements and the funding limits.

The most common circumstances under which businesses are considered to be linked include:

- one business holds a majority of the shareholders' or members' voting rights in another business
- one business is entitled to appoint or remove a majority of the administrative, management or supervisory body of another
- a contract between the business, or a provision in the memorandum or articles of association of one of the businesses, enables one to exercise a dominant influence over the other
- one business is able, by agreement, to exercise sole control over a majority of shareholders' or members' voting rights in another

Who can't apply

The following are not eligible for the grants:

- Crown bodies
- projects that are carried out only to meet a legal requirement

Preparing an application

Includes:

- **National priorities for funding**
- **Local priorities for funding**
- **How we assess applications**
- **EOI - what we look for**
- **Full application - what we look for**

Preparing an application

RPA will assess all applications. We're looking for evidence of a sound business plan and for projects that meet the priorities for funding.

When you apply for a grant, you're competing with other applicants in your area.

We're looking for projects that best meet the national and local priorities for funding, and that are good value for taxpayers' money. If you can show this clearly in your application, you're more likely to get a grant.

National priorities for funding

Your project is more likely to get a grant if it achieves at least 2 of the below.

Create jobs	Create at least 1 FTE job for every £30,000 of grant funding. Creates skilled jobs
Extend the tourism season	Attracts tourists outside the usual period of May to October
Develop tourist attractions and infrastructure	Creates or develops tourist attractions and infrastructure to increase the range of attractions available locally, encourage tourists to stay longer and increase their spend
Wider benefits	The project provides benefits to the wider tourism economy in the rural area

Local priorities for funding

Local priorities are set by the ESIF sub-committees. Check the LEP area directory on pages 33 to 68 to see the priorities for your LEP area.

Some tourist destinations have 'destination plans' or strategies for encouraging tourism locally. Your project will be prioritised if it fits with the objectives of the destination plan. The LEP directory will say if there is a destination plan in your local area.

How we assess applications

Application is in 2 stages. First, you must submit an 'expression of interest' (EOI) form. If we approve your EOI, we will invite you to submit a full application.

We assess your application at both stages. Read 'How to apply' on page 26 for more information.

EOI – what we look for

We use the information on the EOI form to check that both the applicant and project are eligible.

Then we assess how well your project meets the national and local priorities for grants. To do this, we look at question 30 of the EOI (the 'strategic fit') and score and rank it against other applications.

It will help your application if you explain your project clearly.

Tell us exactly what you're doing, why it's good for your business, how and where you're doing it and who will benefit from it.

Full application – what we look for

If you're invited to submit a full application, we'll ask for more information to further assess your project and your business. This table will give you an overview of what we assess.

<p>Strategic fit</p>	<p>How well the project meets the national and local priorities for funding.</p> <p>How the project will impact the environment.</p> <p>That the project does not disadvantage anybody in terms of characteristics such as ethnicity, disability, age and gender.</p>
<p>Value for money</p>	<p>How the project costs represent value for money.</p> <p>The amount of grant required to deliver the outcomes and outputs, including jobs.</p> <p>What difference grant funding will make, compared to what would happen without grant funding.</p>
<p>Need and demand</p>	<p>Why grant funding is required for the project.</p> <p>There is a clearly identified market need for the project.</p> <p>The impact the project has on other businesses, both positive and negative.</p>
<p>Financial viability</p>	<p>The current financial viability of your business.</p> <p>How the project may impact on your existing business operations.</p> <p>How you will fund the project until the grant is claimed.</p> <p>How the business will benefit from the project financially.</p>
<p>Delivery and sustainability</p>	<p>Whether the project will be delivered in budget and on time.</p> <p>That the right skills and resource are in place to deliver the project successfully.</p> <p>How project outputs and other benefits will be monitored and recorded.</p> <p>That risks to project delivery have been identified and how they will be mitigated.</p>

Funding and costs

Includes:

- **How much funding is available**
- **Paying for the project**
- **Eligible costs**
- **Costs which are not eligible**

Funding and costs

You can use grant funding to cover a certain percentage of some project costs – some costs are not eligible.

How much funding is available

The grants can only fund a certain percentage of eligible costs and there is a maximum percentage that applies. You can use other public money to pay for eligible costs – but only up to that maximum percentage.

Above the maximum percentage, all the money you use to pay for eligible costs must be from private sources (like savings or a bank loan).

The amount of funding you can get depends on whether or not the project is commercially run and intended to make a profit.

Type of project	Maximum percentage	Minimum/maximum grant amounts
Commercial, profit-making project (such as a tourist attraction)	Up to 40%	Minimum £35,000 to a maximum of €200,000 (approximately £170,000) maximum set by each LEP area
Makes some income to offset costs but is not intended to make a profit (such as small buildings for tourist information)	Up to 80%	Minimum normally £35,000, maximum may be set each LEP area
Generates no income (such as a new cycle path)	Up to 100%	Minimum normally £35,000, maximum normally €200,000 (approximately £170,000) – the LEP might set a lower amount. Grants over €200,000 can only be awarded in limited circumstances. You will need to contact RPA to discuss before you submit an EOI

Has your project already had some public funding?

When you apply, we'll ask you to tell us if you have had any funding from the EU or other public sources, and if it was awarded under 'industrial de minimis'.

If so, we might need to limit the amount of the funding you can get, to comply with the EU state aid industrial de minimis rules.

Paying for the project

Grants are paid in stages, in arrears. They can only be claimed after the work being claimed for is finished and has been paid for.

Grants are paid in arrears, in agreed stages. We expect you to make a maximum of 3 claims over the course of the project.

You must show that you have sufficient funds to pay for the project costs until you get the grant payments.

Hire-purchase or leased items must be paid off before you claim

If you buy an item for the project using lease purchase or hire-purchase, you must own this outright before you can claim any grant money towards it.

That means that, before you claim the grant, you must:

- pay all of the instalments
- show that the title has passed to you

Otherwise you will not be able to include these costs in your claim.

Do not start work, incur costs or place an order before your grant agreement has been signed.

This will potentially make your whole project ineligible.

Eligible costs

The grant can be used to pay for a percentage of the following costs:

- constructing or improving buildings
- buying new equipment and machinery

The following costs are also eligible, if they form part of a larger project being funded:

- architects, engineer or consultant fees for the project (as long as these don't add up to more than 15% of the project's total eligible costs)
- buying or developing a dedicated piece of computer software (but not an off-the-shelf piece of software like Microsoft Office)
- patents, licences, copyrights or trademarks
- energy-saving and resource efficiency equipment

How much funding do you need?

Just because you can ask for up to 40% grant funding doesn't mean you should.

Asking for less grant money will make your project better value for taxpayers' money.

Costs which are not eligible

The following are not eligible for the grants (this list is not exhaustive).

Costs specific to tourism:

- refurbishment only to retain the current star rating of tourist accommodation
- tourism brown signs
- hire costs (for example, covering equipment or temporary structures)

General costs:

- any costs incurred before the project start date shown in the grant funding agreement
- contingency costs
- the cost of getting any permissions or consents, such as planning permission
- any items which you have already had EU or national funding for (or intend to get EU or national funding for)
- relocation costs – if the business needs to relocate in order to expand, it can only apply for funding for the cost of the expansion
- costs associated with the provision of housing
- marketing and promotion

Buildings, land and equipment costs:

- repairs and maintenance of existing buildings, equipment and machinery
- purchase of land, whether or not this land is built on
- like-for-like replacement of existing items (such as buildings, equipment and machinery)
- purchase of machinery or equipment that will not be on the asset register of the business 5 years after completion of the project
- the cost of moveable fittings – like soft furnishings, beds, tables, chairs, cutlery and crockery, curtains, televisions and audio equipment
- renewable heat and energy systems covered by the Renewable Heat Incentive (RHI) or Feed-In Tariffs (FITs)

Business running costs:

- salaries and running costs of the business
- in-kind contributions (this means the value of donated work or services) such as the cost of using your own labour, vehicle and office space
- recurring licence fees, subscriptions and service charges
- computers, software and printers used in the general running of the business, like processing orders or accounts
- mobile phones

Agricultural business costs:

- buildings, machinery and equipment used for growing and harvesting agricultural and horticultural products
- standard agricultural equipment and inputs like animals and crops
- the cost of agricultural production rights and payment entitlements
- developing or setting up agricultural businesses

Financial costs:

- bad debts
- advance payments
- insurance policy costs
- working capital
- financial charges, such as bank charges, fines and interest
- costs connected with a leasing contract, such as a lessor's margin, interest refinancing costs, overheads and insurance charges
- reclaimable VAT
- pension provision

To check if a cost is eligible call the Defra Rural Services helpline on 03000 200 301 or email: GPEnquiries@rpa.gsi.gov.uk

How to apply

Includes:

- **The EOI form**
- **What happens after you submit an EOI form**
- **Full application**
- **If you are offered a grant**
- **Top tips for applicants**

How to apply

What you need to do to begin your application, and an overview of the information you must provide.

Application is in 2 stages. First, you must submit an 'expression of interest' (EOI) form. If we endorse your EOI, we will invite you to submit a full application.

RPA will assess your application at both stages. Only the highest-scoring applications will be successful.

The expression of interest (EOI) form

You can find the EOI form on GOV.UK – search 'RDPE Growth Programme EOI'.

Deadline:

We must receive your EOI before **midnight on 31 January 2018** – if we get it after this deadline, we will reject it.

On the EOI, you'll need to give us some information about your business, including:

- whether it's linked to any other businesses
- turnover and balance sheet total from the most recent financial accounts
- details of any previous public funding your business has had

You'll also need to tell us about your project:

- what the objectives are and what the outputs will be
- an overview of the costs
- important dates for the project
- how it fits with the local and national priorities for funding
- the market demand for your project and its impact on similar businesses

How to submit your form

Email your form to:

growthapps@rpa.gsi.gov.uk

We can only accept forms that are:

- sent by email
- Microsoft Excel documents saved in the 1997-2003 XLS format

We cannot accept any other format – including PDF documents, scanned documents, hard copy printed applications or hand-written applications.

Email your EOI from the email address you specify in section 5 of the EOI form. If an agent sends the form on your behalf, that address must be copied into the email.

Provide an email address that you check regularly.

We will use the email address you put in section 5 of the form as our main way of contacting you.

What happens after you submit your EOI

After you submit the form, you'll get an automatic email to say we have received it. We will then assess your EOI and let you know whether or not you will be invited to submit a full application.

We aim to give you a decision on your EOI within 30 working days.

If an application is unsuccessful

If your EOI is unsuccessful, RPA will send you a letter with the reasons.

To find out how to appeal against the decision, read the 'How to appeal' section of the RPA complaints procedure page on GOV.UK.

Full application

If you're invited to submit a full application, we'll send you the relevant form and advice about how to fill this in.

The form asks for full details about you, your business and your project, including:

- final project costs
- supplier details
- key dates
- proposed project outputs

You'll need to send us:

- supporting documents appropriate to the project (such as market research, customer surveys, or industry reports)
- business accounts for last 3 financial years (unless you are a new business)
- relevant permissions and consents
- 3 quotes for each item to be purchased
- evidence that you can cover the project costs before claiming the grant in stages

There is potentially a lot of information, evidence and paperwork to collect. It can take 2 - 3 months for you to prepare your full application, possibly longer if you need planning permission.

You'll be given a named contact at RPA to support you and answer questions.

You'll also be invited to attend a workshop, where RPA will explain the application process in more detail and answer any initial

questions you have.

Before you send us your full application, you'll need to be registered on RPA's Rural Payments service and have a Single Business Identifier (SBI) number.

We aim to give you a decision on your full application within 60 working days.

If you are offered a grant

If you are offered a grant, we'll send you a grant funding agreement for you to sign. This will set out the legal terms and conditions of the grant, including:

- the amount of the grant
- the outputs we've agreed for your project
- which suppliers you're using

If you need to change anything in the grant funding agreement over the course of the project, you need to get written agreement from RPA first. If not, we could terminate your agreement and reclaim any grant we've already paid.

You'll get more information and help with this if you're offered a grant.

Top tips for applicants

Before you start your application, here are some important reminders...

Jobs + growth + rural

The main aim of the RDPE Growth Programme is to create jobs and growth in the rural economy. Tell us how your project will help do this.

Sell us your idea

Explain really clearly what your project does and how it will benefit the economy. It's hard for us to justify giving you a grant if we don't understand your project.

Don't ask for the full amount if you don't need it

Just because you can get (say) 40% of your costs covered, don't ask for that amount if you don't need it. As long as you stay below the maximum, you can tell us what grant rate you want. (It's better value for taxpayers' money.)

Show us what the funding will mean to the success of your project

We're obliged to invest public money carefully. We're looking for viable, growing businesses. If you can show us that your project is good value for money, and that you're planning to use the grant money to improve your project, you're more likely to get the grant.

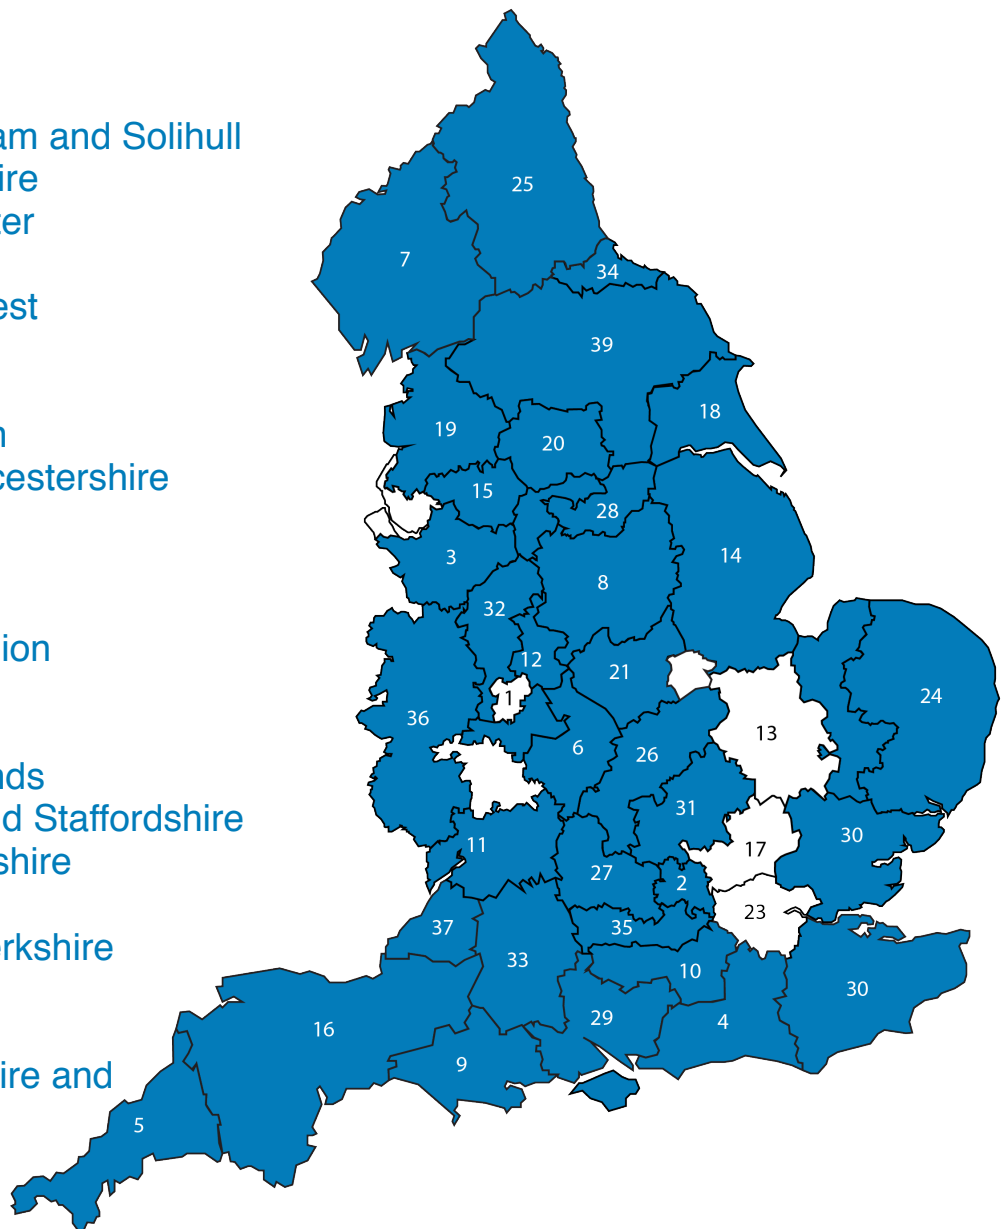

Do the market research

You have to show that there is real demand for what you want to do, or you're unlikely to get a grant.

Grants in your area

Use this directory to find out which LEP areas are participating and what funding is available in your local area.

How to use this directory

- Check the map on the previous page to see if your LEP area is offering a rural tourism infrastructure grant
- Find the entry for your LEP area (these are listed alphabetically)
- Each entry has a link to the LEP area rural map. Use this to check if your project is in a rural area
- There is also a link to the LEP area Growth hub website. Growth hubs help businesses access local and national advice. This makes it easier for them to find the help they need to grow their businesses.
- Read the whole entry carefully to find out:
 - minimum and maximum grants available
 - types of eligible projects and businesses
 - local priorities
- Read the documents at the links shown in the 'Further reading' section

Deadlines for project completion

You should aim for your project to be finished and paid for, and complete grant claims submitted, by 31 March 2019.

The final date to submit complete grant claims is 31 December 2019.

Minimum grant	£75,000	Maximum grant	Commercial projects €200,000 approx. £170,000 Other projects £250,000 subject to state aid rules

Local priorities

These grants are for capital investments to develop and grow tourism in rural areas. The Coast to Capital LEP area is a popular destination for both day and short stay visitors. The aim is to grow and develop tourism in rural parts of the Coast to Capital LEP area to increase the economic benefits and create new jobs.

Priority will be given to projects that:

- develop and increase active tourism, such as walking, cycling, sailing and equestrian activities
- encourage longer stays and higher spend by tourists in the rural parts of the LEP area
- show they are environmentally sustainable
- benefit multiple businesses and destinations, for example: cycle paths connecting rural attractions, and cultural and heritage assets
- link tourism to the wider economy, for example: creating links to food and drink businesses and increasing business tourism

Cornwall and the Isles of Scilly

LEP area	Cornwall and the Isles of Scilly	Call reference number	05RD17TO0004
LEP area Growth hub website	https://www.ciosgrowthhub.com/		
LEP area rural map	https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/270523/Cornwall_and_Isles_of_Scilly_LEP_full_class.jpg		
Initial amount allocated	£2,175,000	Number of projects funded in LEP area	9 to 217
Minimum grant	£50,000 in Cornwall and £10,000 on the Isles of Scilly	Maximum grant	Commercial projects €200,000 approx. £170,000 Other projects £250,000 subject to state aid rules

Local priorities

These grants are for capital investments to develop and grow tourism in rural areas. There is scope for growth in rural and farm based tourism. This will help to grow the overall visitor economy in Cornwall and Isles of Scilly (CloS) LEP area. The aim is to support projects benefitting a number of businesses. However investments in individual businesses will also be considered. These investments will attract more visitors helping rural businesses and communities benefit from the value of tourism.

Priority will be given to projects that show one or more of the following:

- benefit the rural area as a whole including multiple businesses, not just the applicant business
- improve the range and quality of tourism products for example by investing in leisure, cultural and heritage amenities
- create jobs that are paid above the average annual salary for Cornwall and the Isles of Scilly (£17,389)
- increase the volume and value of rural and farm based tourism in the off-peak season, for example by creating new all-weather tourist attractions and activities
- attract more visitors from overseas
- increase the number of visitor overnight stays, for example by improving existing guest facilities
- develop and increase outdoor tourism, for example cycling and walking
- fit with the local tourism strategy and relevant destination management plan
- improve the competitiveness of micro and small businesses in the tourism sector in rural areas
- show innovation where there is clear market need and demand

The creation of new visitor accommodation is a low priority for support.

These grants will not support projects that:

- refurbish, repair or maintain existing accommodation where the current standard of facilities and / or accreditation rating is retained

Local priorities

These grants are for capital investments to develop and grow tourism in rural areas. The aim is to bring more national and international visitors to rural areas who stay longer, come back for repeat visits and tell others to visit. The investments will build on the reputation of the YNYER LEP area of providing a great welcome for visitors and increase word of mouth recommendations by national and international visitors.

Priority will be given to projects that:

- create and improve infrastructure for outdoor activities, particularly projects that develop capacity and enhance the reputation of the area for activities including cycling, walking, horse riding, canoeing and nature tourism
- create and develop infrastructure to enable visitors to move around the area such as cycle paths and footpaths
- improve facilities to encourage:
 - o visitors to stay longer
 - o make return visits
